## **Law and Ethics Bulletin**

### **Destruction of Schedule 1, 2, 3 and 4 Part I Controlled Drugs**

Pharmacists are advised that all Schedule 1, 2, 3 and 4 Part I CDs must be rendered irretrievable/denatured prior to being supplied to their waste carrier, unless the waste carrier has a licence to possess these CDs. This is because there are no provisions within the Misuse of Drugs Regulations for a waste carrier to possess Schedule 1, 2, 3 and 4 Part I CDs unless they have an appropriate licence. Therefore pharmacists are advised to denature these CDs before supplying them to a waste carrier.
