

Here are some resources we recommend in response to enquiries from preregistration trainees about suggestions for 'Category B – Required topics' reference sources to support their preregistration training year.

All of the titles below can be borrowed from the RPSGB Library.

You can borrow up to a maximum of three books. If you are unable to visit the Library in person, we offer a postal loan service - we will pay for the outward postage for book loans, however we do ask that you pay the return postage costs. If you have not registered your details with the library already there is a form in your preregistration trainee workbook or alternatively please visit <http://www.rpsgb.org/informationresources/library/usingthelibrary.html>

General preregistration books:

Hospital pre-registration pharmacist training.
