

Scottish Pharmacy Board 11 June 2008

PUBLIC BUSINESS

Scottish Pharmacy Board Action Plan 2008

Purpose

To review and agree the actions of the Scottish Pharmacy Board Action Plan 2008.

Strategic objective domain

- Provide strategic leadership and support for pharmacy practice in Scotland.
- Assist the development of Council policy and implementation in Scotland and develop and implement policy specific to Scotland.
- Promote the science and practice of pharmacy and its contribution to health.
- Provide professional advice to government and its agencies, NHS bodies and other health and social care organisations in Scotland.
- Support the Society's branches in Scotland.
- Support pharmacists in their professional roles in Scotland.

Action required

The Board is asked to agree the actions against the agreed strategic objectives.

1. Background

At a Strategy and Discussion session in May the Board reviewed the current actions and discussed future actions against the overarching strategic objectives.

Appendix 1 shows the SPB Action Plan with the agreed objectives and proposed actions.

2. Risk Implications

If the Board does not agree an Action Plan there is a risk of failing to deliver its remit.

3. Resource Implications

The budget has been allocated for this year based on the objectives and actions discussed at the Scottish Pharmacy Board Strategy Discussion day in November 2007. Future actions will be taken into consideration when drafting the 2009 budget.

Lyndon Braddick

Secretary to the Board
